Through the comparison with the Chinese philosophy, the author conducts an in-depth analysis of the operational modes and interrelationships between the two spirits in Hegel's philosophy, expounds on the systematic characteristics of the ontology, epistemology and logic in Hegel's philosophy, and shows the inner connection and difference between Hegelian philosophy and Marxist philosophy. It is a pioneering research result of Hegel's dialectics.

## SELECTED WORKS OF MODERN CHINESE LEARNING

To explore and research on a hundred years' history of academic study and inspire and carry on the innovations of academic thinking, the series of "Selected Works of Modern Chinese Learning" stands for the highest achievement of Chinese modern academic study in the past hundred years. The series includes works (both in Chinese and in foreign languages) of Chinese scholars. These works cover most subjects in humanities and social sciences, such as philosophy, literature theory, history, politics, economy, jurisprudence, sociology, to name a few. The books collected in the series

are all pioneer works or masterpieces of profound influence in China and abroad. For example, Ma Jianzhong on Chinese Grammar is the first study on Chinese grammar using modern linguistic theories, and On Localization of Sociology in China is a symbol of the foundation of modern Chinese sociology. All these books demonstrate the original achievements of modern Chinese scholars and are the achievements of combining traditional Chinese academic study and modern academic theories.

The academic history in the past hundred years is the epitome of the hundred years' social transformation in China. All these works are products of thinking on the way of China by pioneer intellectuals of the time. For instance, Study on Chinese Bureaucratic Politics analyzes the traditional Chinese "bureaucratic politics" from a unique modern intellectual perspective; A Way Out for the Fourth Kind of Countries proposes an optional way for China's development at the time; Law and Society in Traditional China is a modern study on legal system in traditional Chinese society. The topics presented by these works are still brilliant in their opinions even today.

In recent years, with the increase of China's national comprehensive strength and international status, the Chinese model has attracted the world's attention. All these achievements come from the continual effort of Chinese people whose strength is deeply rooted in Chinese traditional culture and modern thinking. By tracing back to the source and searching for the basis of modern Chinese learning, we wish to present the dynamics between thought and time and make a contribution of Chinese wisdom to the diversified development of the world's civilization.

百年前，张之洞尝劝学曰：“世运之明晦，人才之盛衰，其表在政，其里在学。”是时，国势濒危，列强环伺，传统频遭质疑，西学新知亟亟而入。一时间，中西学并立，文史哲分家，经济、政治、社会等新学科勃兴，令国人乱花迷眼。然而，淆乱之中，自有元气淋漓之象。中华现代学术之转型正是完成于这一混沌时期，于切磋琢磨、交锋碰撞中不断前行，涌现了一大批学术名家与经典。而学术与思想之新变，亦带动了社会各领域的全面转型，为中华复兴奠定了坚实基础。

时至今日，中华现代学术已走过百余年，其间百家林立、论辩蜂起，沉浮消长瞬息万变，情势之复杂自不待言。温故而知新，述往事而思来者。“中华现代学术名著丛书”之编纂，其意正在于此，冀辨章学术，考镜源流，收纳各学科学派名家名作，梳理中华现代学术演进脉络，以展现传统文化之新变，追寻现代文化之根基。

“中华现代学术名著丛书”收录上自晚清下至 20 世纪 80 年代末中国大陆及港澳台地区、海外华人学者的原创学术名著（包括外文著作），以人文社会科学为主体兼及其他，涵盖文学、历史、哲学、政治、经济、法律和社会学等众多学科。

“中华现代学术名著丛书”出版，为本馆一大夙愿。自 1897 年始创起，本馆以“昌明教育、开启民智”为己任，有幸首刊了中国现代学术诸多开山之著、扛鼎之作。于中华现代学术的建立与变迁而言，既为参与者，也是见证者。作为对前人出版成绩与文化理念的承续，本馆倾力谋划此丛书，幸得国家出版基金扶持，并经学界通人擘画，打造了这套经典之作。希望无论多少年，皆能傲立于书架；更深望其与“汉译世界学术名著丛书”相辉映，为学人提供中华本土学术思想的上乘之作。如此宏愿，难免汲深绁短之忱，惟盼各界专家与广大读者共襄助之。
